-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Q.M.

Claims 17-21 are rejected under the judicially created doctrine of double patenting over claims 1-8 of U. S. Patent No. 6,655,371 since the claims, if allowed, would improperly extend the "right to exclude" already granted in the patent.

The subject matter claimed in the instant application is fully disclosed in the patent and is covered by the patent since the patent and the application are claiming common subject matter, as follows: The cable guard including a cable saver adjustably mounted on the cable guard.

Furthermore, there is no apparent reason why applicant was prevented from presenting claims corresponding to those of the instant application during prosecution of the application which matured into a patent. See *In re Schneller*, 397 F.2d 350, 158 USPQ 210 (CCPA 1968). See also MPEP § 804.

Claims 1-3, 7, & 22 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-8 of U.S. Patent No. 6,655,371 in view of Angeloni 5,415,154.

Page 3

Patent 6,655,371 does not disclose an arrow rest operatively coupled to the cable guard. Angeloni shows that a bow may include a cable saver 15, adjustably mounted on a cable guard 25, by means of a swing arm 21, and a fall-away arrow rest 31 coupled to the cable guard. This would be useful with the cable guard of patent 6,655,371 so that the arrow rest does not interfere with the arrow as it is fired. It would have been obvious to one of ordinary skill in the art to provide the bow with cable guard of patent 6,655,371 with a fall away arrow rest, as suggested by Angeloni.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 7, 17, & 20-22 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Angeloni 5,415,154.

Application/Control Number:

Claims 13-16 are allowed.

Claims 4-6, & 8-12 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The prior art does not disclose a bow having a cable guard with a swing arm; a fall away arrow rest; and a cable attached between the swing arm and arrow rest.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
